0845-1015
Discussion: Open questions from Tuesday.

- Is Redmine a useful source of information for this committee?

- Will OOI need to move into the cloud? Bring compute to data?

- What will be the relationship between this committee's activities and the AoA?

- Is Rich the only person who cares about ERDDAP? Is ERDDAP a requirement? Is it meaningful that 2/3 MIOs use ERDDAP internally?

- Can/should this committee revisit OOI requirements vis à vis feedback from scientists?
