

1610 – 1650

Outreach and Engagement

OOIFB Community Engagement Needs:

- Subcommittee Members - Sarah Gille, Deb Kelley & Jim O'Donnell
- Met twice via web conference – August & Oct
- The goal the OOI community engagement effort is to increase the science user base for OOI.
- Recommendations:
 - *Host an OOI Community Workshop*
 - *OOIFB should provide suggestions for the OOI Booth at the Ocean Sciences Meeting*
 - **Form an OOIFB Task Force on OOI Community Engagement Needs**

OOI Community Workshop

- OOI large community workshops were last held in 2016.
- These were effective in their ability to:
 - Inform science users and potential users about the status of the OOI program
 - Highlight the science that can be achieved using OOI data.
 - Provide tutorials on how to optimally access OOI data.
 - Provide a forum for community networking.
 - Provide opportunities for the OOI program to receive direct feedback from the science user community.

OOI Community Workshop

Recommendation: Host a Community Workshop focused the North East Pacific OOI Arrays.

- Venue: University of Washington
- Date: Spring 2020
- Organizers: OOI RCA, Station Papa, and Endurance PIs, OOIFB, Early Career Scientists
- Participants:
 - OOI Science Users and potential Users, including early career scientists.
 - OOI PMO, MIOs, and Data team members
 - Representation from OOIFB
