The NSF Ocean Observatories Initiative Facility Board (OOIFB) established the Data Delivery and Cyberinfrastructure (DDCI) Committee in late 2018 to help ensure timely and reliable access to high-quality Ocean Observatories Initiative (OOI) data. The DDCI Committee provides recommendations to the OOIFB on policies and practices that will lead to more efficient and effective use of OOI data by scientists as well as other potential users. The Committee provides critical reviews of OOI's data delivery and cyberinfrastructure plans, identifies short-term priorities, and suggests longer-term strategic actions.

The DDCI Committee is now soliciting applications to fill one open position. The appointment shall fill the remainder of an unexpired term and will be effective starting in July 2020 and run through September 2022. The selected individual will be eligible to serve a second term of 3-years. The DDCI Committee holds at least one in-person meeting per year and one web conference each month.

Typical tasks of the committee may include, but is not limited to, the following:

- Keeping abreast of the functionality of the entire OOI data delivery system and evaluating the status of data ingestion and availability.
- Understanding the variety of data delivery needs of the ocean science community.
- Making recommendations on effective mechanisms for facilitating data delivery.
- Evaluation of potential new modes of data access for the science user.
- Engaging with the OOI Data Delivery Manager regarding the priorities of the OOI cyberinfrastructure groups.

Scientists with experience using scientific observing systems such as OOI, as well as those with experience in successfully delivering data from large-scale multi-sensor observing systems to scientific users are encouraged to apply. Representation from the OOI early career science community is particularly needed at this time. Applications should be submitted to Annette DeSilva, at the OOIFB Administrative Support Office (desilva@ooifb.org), and must include a letter of interest and an academic CV. Applications are due by June 24, 2020. Applications will be reviewed by the DDCI Committee who will give due consideration to the qualifications of applicants, as well as to maintenance of career level, disciplinary, and regional balance on the Committee. For more information about the DDCI Committee and its activities, please visit the OOIFB website: http://ooifb.org or contact Tim Crone, DDCI Committee Chair (tjcrone@gmail.com).
